

Ministry Profile

Would you like to begin a conversation in your church about poverty but don't know where to start?

“As each has received a gift, use it to serve one another, as good stewards of God's varied grace.”

1 Peter 4:10 ESV

Do you ever wonder what your congregation's views are on poverty and the role each individual, and your church can have in following the biblical call to alleviate it? Do you know the ways in which your congregation is currently active in their community? By clarifying your collective gifts and ministry activity you will better align your ministries in context of your service goals.

After listening to your congregants and leadership through an internal surveying process, you will receive a comprehensive profile. This profile report brings visibility to church demographics, views on poverty, and congregant engagement levels in your community.

Ministry Profiles can help your church:

- Congregants being motivated to participate in future planning based on their active engagement in the process.
- Understanding the current state of your human and financial investments related to church missions/ministries.
- Movement and planning to align your passions, resources, and talents to your community outreach initiatives.

How It Works

- 1** Your congregation and leadership will complete a confidential survey
- 2** Survey execution is supported and data is analyzed by ACTS team.
- 3** Survey results are presented to your teams in the way that works best for your church environment. With the help of a coach, your church's leadership team identifies next steps.
